

Davenport Educational Enterprises, LLC
Educational Consulting Proposal
Prepared by Dr. Marcus G. Davenport, PhD

Dear School Leadership,

I am Dr. Marcus G. Davenport, Founder and CEO of Davenport Educational Enterprises, LLC. With over 25 years of experience in the field of education, I have served in a variety of leadership roles, including superintendent, principal, university professor, and educational consultant. My career has spanned some of the most challenging urban environments in the country, including Flint, Detroit, and Atlanta, where I've successfully led efforts to improve student achievement, enhance instructional quality, and strengthen school cultures. As a superintendent, I spearheaded initiatives that eliminated a longstanding deficit in one district and positioned another to thrive academically and operationally, despite limited resources and significant challenges. My experience includes guiding districts through complex transformations, from implementing strategic plans and rebranding efforts to securing crucial community partnerships that supported technology, health, and academic initiatives.

In addition to my leadership in K-12 education, I have served as a university project director and adjunct professor, where I've focused on training future educators and administrators in instructional leadership, equity-centered practices, and effective school governance. My hands-on experience in diverse school environments, combined with my PhD in K-12 Educational Administration, allows me to offer a unique perspective on the systemic issues facing education today. Whether working with central office staff to improve operational efficiency or collaborating with school leaders to build more inclusive learning

environments, my expertise in organizational improvement, data-driven strategies, and stakeholder engagement has consistently driven measurable success across the districts and schools I've served.

At Davenport Educational Enterprises, we provide targeted, results-driven consulting services designed to address the unique challenges facing K-12 education today. From improving instructional practices to enhancing district leadership, my team and I offer comprehensive support aimed at fostering growth, innovation, and student success.

Consulting Services We Offer:

Administrator Coaching

We provide one-on-one and small group coaching for school leaders, focusing on strategic decision-making, leadership development, and improving communication across departments. Our goal is to enhance the effectiveness of administrators by equipping them with the tools to foster collaboration, innovation, and a student-centered approach to leadership.

Measurable Outcomes:

- Improved decision-making processes as measured by administrative feedback surveys.
- Increased staff satisfaction and retention rates.
- Enhanced school climate and culture as reported by staff and student surveys.

Central Office Consulting

Our central office consulting services focus on optimizing district-level operations. We work closely with superintendents and central office staff to streamline administrative processes, improve communication between departments, and ensure alignment with district goals. We help districts manage resources more effectively and implement policies that drive student success.

Measurable Outcomes:

- Increased operational efficiency as measured by reductions in administrative costs.
- Improved cross-departmental communication through regular feedback loops and surveys.
- Alignment of district goals and outcomes as seen through progress on strategic planning initiatives.

Instructional Observation Improvements

We help districts refine their teacher observation and feedback systems to enhance instructional quality. By training administrators on best practices for classroom

observations and providing actionable feedback, we ensure that teachers receive the support they need to grow professionally and improve student outcomes.

Measurable Outcomes:

- Increased teacher performance as measured by observation scores.
- Higher student achievement in classrooms where instructional observation improvements are implemented.
- Improved teacher satisfaction with the feedback process as measured through surveys.

Academic Achievement Enhancement

Our strategies for academic achievement focus on closing gaps and improving overall student performance. We use data analysis and targeted interventions to support schools in raising student outcomes across all demographics, ensuring that no student is left behind.

Measurable Outcomes:

- Increased standardized test scores and student proficiency rates.
- Reduced achievement gaps between student subgroups.
- Improved graduation rates and post-secondary readiness metrics.

Strengthening School and District Culture

We help schools and districts build a positive, inclusive culture that supports student engagement and staff collaboration. Our culture-building initiatives focus on fostering a sense of belonging for students and staff alike, resulting in a more motivated and successful school community.

Measurable Outcomes:

- Improved staff retention and engagement rates.
- Increased student participation and sense of belonging as measured by school climate surveys.
- Reduction in student discipline issues and absenteeism rates.

Why Choose Davenport Educational Enterprises?

- **Proven Expertise:** I've led transformations in some of the nation's most challenging urban and suburban school environments.

- **Customized Solutions:** Every consulting engagement is tailored to meet the specific needs of your school or district.
- **Results-Oriented Approach:** My goal is to implement strategies that deliver measurable improvements in leadership, instruction, and student achievement.

Let's Work Together

I'd love the opportunity to discuss how we can partner to enhance your educational outcomes. Please feel free to reach out to schedule a consultation.
